港大學生遭電騙人均損失約百萬 這份防騙指南請收好

熱點追蹤 2025.01.20 19:13

【點新聞報道】每年都有大批內地學生赴港讀書，香港與內地的文化差異也讓不法分子有機可乘，不少內地學生墮入詐騙陷阱，受騙金額觸目驚心。香港大學本月16日向學生發送電郵指出，近月超過60名港大學生墮詐騙案，損失超過6000萬港元，平均每人被騙100萬元。據了解，上當的主要是內地生。據點新聞報道，一名來自內地的18歲港大女學生更是被騙920萬港元，詐騙手段則是冒充電訊公司職員稱受騙者牽涉一宗洗黑錢案件。

罪案消息

電話騙案-再有五名大學生中招

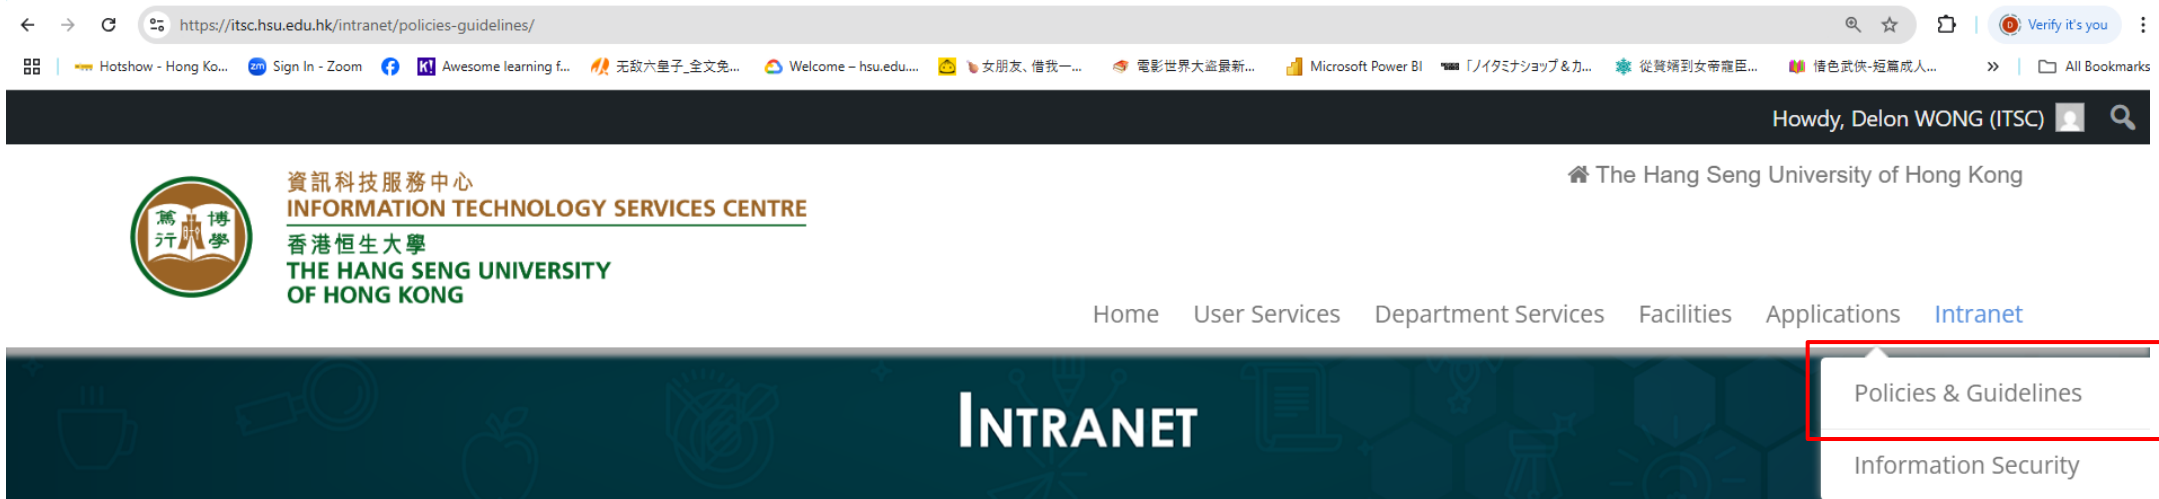

行騙手法

在今年 10 月期間，西區警區已經錄得五宗電話騙案涉及大學生受害人，被騙的金額總值超過港幣二十萬。

案中五名大學生都收到騙徒電話假冒為政府官員，訛稱事主觸犯了內地法例，繼而將通話轉駁至自稱為內地公安及檢察官的另一騙徒，要求事主提供個人及銀行戶口資料以協助事主洗脫嫌疑，在一些個案中，騙徒為提高可信性，會要求事主登入一網站，網站上載有事主個人資料及相片的通緝令。受害人不虞有詐，將有關資料交予騙徒，騙徒從而盜取事主銀行戶口內的存款。

M365 Services

Microsoft 365 – Student

HSUHK is using Microsoft services for email, calendar and online drive.

Email: <https://outlook.live.com>

OneDrive: <https://onedrive.live.com>

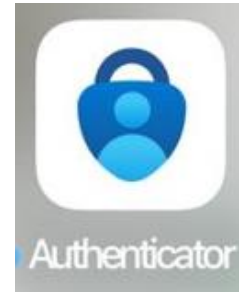

In additional, as our staff and students, you can use Microsoft Office (Word, Excel, PowerPoint) and install the M365 applications for up to 15 devices (5 PCs/notebooks, 5 tablets, 5 mobile phones).

The quota for **OneDrive is 500GB** and **email is 100GB**.

You may login to <https://portal.office.com> with your **M365 account** (xxxxxx@hsu.edu.hk) to use and download M365 applications.

The screenshot displays the HSUHK ChatGPT portal. On the left is a sidebar with a list of chat categories, each showing the number of queries and the last activity time. The 'ITSC Ideas' category is highlighted with a green border. The main chat window on the right shows a conversation with the model 'gpt-4o-mini'. The chat content includes a welcome message, a list of 50 queries, and a detailed technical guide for using Lumen to generate APIs for a MySQL database. The guide is structured into three steps: 1. Install Lumen, 2. Configure Database Connection, and 3. Create a Migration. Each step includes a code block with the necessary commands or configuration values. The interface also features a search bar at the bottom with a 'Send' button and a 'Logout' button in the sidebar.

Using Lumen to generate a list of APIs for a MySQL database involves several steps, including setting up the database connection, creating a model, a migration, and defining routes and controllers. Below is a step-by-step guide to help you achieve this.

Step 1: Install Lumen

If you haven't already installed Lumen, you can do so using Composer:

```
composer create-project --prefer-dist laravel/lumen my-lumen-api
cd my-lumen-api
```

Step 2: Configure Database Connection

Open the `.env` file in your Lumen project and configure your database connection settings:

```
DB_CONNECTION=mysql
DB_HOST=127.0.0.1
DB_PORT=3306
DB_DATABASE=your_database_name
DB_USERNAME=your_username
DB_PASSWORD=your_password
```

Step 3: Create a Migration

Create a migration file for your database table. You can use the Artisan command to create a migration:

```
php artisan make:migration create_items_table --create=items
```
